A couple of rather peculiar snakes have been killed recently by Mr. S. B. Eubanks and Mr. S. I. Evans. The snakes were black and red in color and were about three feet long. The tail ended in a stinger, very much like a scorpion.

One of the snakes was made by striking with the tail.

Mr. Lee Griffin struck a streak of luck Monday morning when he sold his entire crop of cotton to Mr. Frank Walters for 12 cents. They shook hands and called witnesses to the trade. Then it was found that there had been a misunderstanding. Mr. Griffin expected 12 cents for each pound but Mr. Walters insisted that he had bought the entire crop for 12 cents. Then the trade was called off.

Mr. J. W. Laney underwent a second operation in a Charlotte hospital Saturday for defective sight, and he is doing as well as could be expected. It will be remembered that he was almost totally blind about two years ago and that he had one eye operated on. Now it has failed again and the doctors say it can't be cured. The operation Saturday was on the other eye. If it fails to restore his sight in that eye he will soon be almost totally blind again.

Rev. R. W. Cato has been the pastor of five churches this year and he has just closed the last protracted meeting. He tells the following interesting facts he has observed: In one church all the members and nearly everybody in the community attend Sunday school, and at this church there have been ninety additions during the year. At another church where about half the members attend Sunday school there were thirty additions. At the third one only about one third of the members attend, and there were nine additions. At another about a fourth of the members go to Sunday school, and there were six additions. At the fifth place there has been no Sunday school and there were just four additions during the year. What better argument can be given in favor of Sunday schools.

Mr. L. L. Parker ordered 100 pounds of vetch seed some time ago, and they, or it, arrived Monday. He was pleased. Then the discovery was made that black pepper had been shipped instead of vetch seed. (Vetch seed and pepper are very much alike, you know) If you are in need of pepper you might see him for the chances are that he will not plant all that pepper.

He married Miss Ola Armstrong, of Columbia, daughter of Mrs. S. P. Armstrong. A copperhead snake about three feet long was found on the dining table coiled around a plate at the home of Messrs. J. T. and D. F. Little one day last week, and then there was consternation in that home, for no one knew where the snake came from or how it got into the house and on the table. The house is well screened, and the only solution was that a negro who sleeps in the dining room on some quilts brought the snake in on the quilts from the porch and dropped it off on the table. But the thought of bringing the snake into the house in his arms struck terror to the negro's soul, and he declared he "sho would shake dem quilts nex' time."

Mrs. Queen Evans, wife of Mr. Henry H. Evans, died at her home here Monday afternoon about six o'clock, after an illness with cancer of the stomach lasting several months. RIVERS AND ODOM FOR REPRESENTATIVE

South Carolina's second primary was held yesterday, and the reports received up to the time we go to press indicate that Manning, Bethea and Shealy have been nominated by big majorities.

The vote in the State as reported up to an early hour this morning stood as follows:

For Governor: Manning 68305, Richards 40,664.
For Lieutenant Governor: Bethea 65,742, Kelley 40,749.
For Railroad Commissioner: Shealy 70,901, Fortner 34,627.

As may be seen by the table below, the race for representative in this county was very close. Two precincts, Ousleydale and Cat Pond, are not given. The two boxes will total a little more than 100 votes, and they will not likely change the totals materially. Odom and Rivers will therefore be declared nominated.

Vetch Seed May Be Had

The Bank of Pageland has for some time been working on a proposition to help our customers to buy vetch seed and clover seed at reasonable prices. Understand, we are not going into the business of buying and selling seed or any other commodity, but we want to do all in our power to help our farmer customers to raise their feed crops at home. We are in a position to know what is spent for Western hay, corn and oats, and we are frank to say that if the practice of the past two years is kept up and if we have another reverse in cotton prices the whole community will be bankrupt.

The solution of the question is to find what crops can be grown profitable. Many of our own farmers have had experience with vetch, and they are requested to be on hand Saturday to tell us of their experience. Mr. W. J. Tiller has at last obtained an option on a limited quantity of vetch seed at a reasonable price provided we place our orders at once. He will meet with the farmers of Old Store township at Pageland Saturday afternoon September 12th, at 2:30 and explain the whole proposition. Let us all come together and place an order before it is too late.

L. L. Parker.

What the Soldiers Eat

London, Sept. 5, 3:09 A. M.—The Daily Mail's correspondent at Gisors, France, estimates the total losses of the allies at 40,000 and those of the Germans at 200,000. He says a moderate estimate of the German losses places them at 20 per cent.

Sheer weight of numbers has pushed the Germans forward at the amazing rate of 25 miles a day, the correspondent adds. The Germans have shown no superiority in artillery or transport. The rapidity of their advance has been due largely to their use of the automobile for transportation.

The British commissaries has perfected the following menu for each man on the firing line:

Daily, a pound of bread with cheese and jam, a pound and a quarter of bacon, a pound and a quarter of beef with tea and rum; two ounces of tobacco weekly.

Brick

I handle Brasington's Brick. Why? Because they are longer, wider and thicker, are side cut, and will hold mortar better. In fact, 800 will do the job that requires 1000 of most any other brick. See me.
